1880.

*Commercial Report by Her Majesty's Consul-General  
in Siam for the Year 1878.*

---

EXPORTS.

THE amount of rice exported in the year 1878 was 2,354,547 piculs. This is rather more than a quarter below the average of the last four years.

As in the last two years, five more steam-mills for cleaning rice have been erected in Bangkok, and two at Patriew, it is to be feared that this business, which is almost the only one that has of late years been profitable to Europeans, will soon become less remunerative than it has hitherto been. There is little prospect of any important increase of cultivation.

The export of teak is rather on the increase. Nothing, however, is done to improve this business or to encourage honest men to engage in it. The consequence is, that capitalists wait until the timber arrives at Bangkok before making their purchases. Those who bring the timber down are for the most part British Burmese. Having little to lose and being naturally fond of precarious speculations, they go into the business much in the same way as other gamblers do, and with about the same result. Very few years bring most of them to grief.

Sugar has almost ceased to be an export, for while, in 1872, 96,861*l.* worth were sent out of the country, last year it only amounted to 4,606*l.*

IMPORTS.

There is no increase in any article of import except that of spirituous liquors.

There has been, however, a considerable increase under this head during the last few years. In 1871 they were imported to the value of 10,179*l.*, which has gone on rapidly augmenting, till in 1878 it reached the sum of 74,744*l.*

The liquor brought here comes almost entirely from China, is of the lowest description, and is believed to be very deleterious to the health of those who drink it.

SHIPPING.

Owners of British steamers running between here and Singapore complain very grievously of a local regulation at the latter port, which compels them to go into dock at least once every six months.

I have failed to find out a valid reason for a regulation so much at variance with the sound principle, that people generally manage their own property better than others who have less interest in it are likely to do. If this regulation is allowed to continue in force, we may expect that the steamers running between here and Singapore will avail themselves of some other flag, which will exempt them from an expense which profits no one but the dock-owners of Singapore.

(Signed) THOMAS GEORGE KNOX.
